A division of Capral Aluminium Limited.
ABN 78 004 213 692

Unlike other wardrobe systems, the mirrorsafe™ panel is secured in place with a translucent plastic strip, allowing you an uninterrupted expanse of glass and complete reflections. The glass handles are also unobtrusive and don't distract from the wardrobe's clean finish.

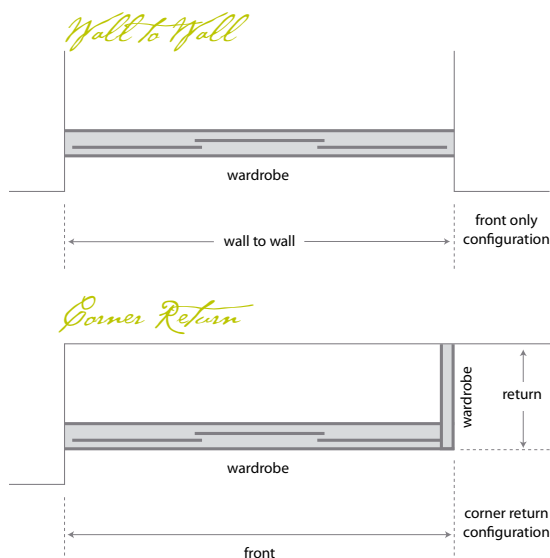

With its acetal resin rollers, your mirrorsafe™ wardrobe will open and close every day as effortlessly as it did on the first day. The rollers are concealed for a tidy look, and are easily adjustable at installation for smooth operation.

The rubber bumpers that are built into the door jambs are also subtle in appearance, and ensure snug and silent closing.

To complete the minimalist look, the mirrorsafe™ wardrobe panel runs on a low profile sill which provides you a low maintenance wardrobe system.

Mirrorsafe™ top and bottom frames come in a range of anodised or powder coat colours to suit your home décor requirements. The glass also complies with the latest Australian standard AS1288:2006.

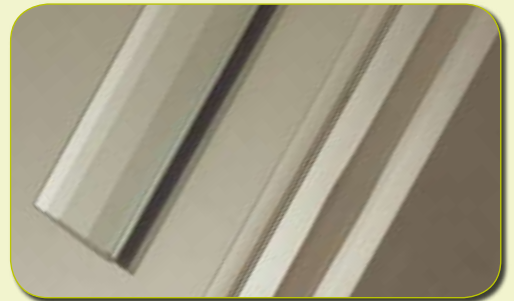

The wardrobe is available in two, three and four panel configurations on a double track sill to suit the size requirements of your home. The mirrorsafe™ wardrobe doors can be installed wall to wall or corner return. See diagrams below.

Features include:

A flat bottom track that is less obtrusive

Unobtrusive glass handles

Acetal resin rollers for smooth operation

Contact your mirrorsafe™ dealer for wardrobe options or further information.
